Amazon.com has blocked Meta’s new AI agent from its retail site after the social media company declined a request to remove the bot, Bloomberg reported.
彭博社报道，在社交媒体公司拒绝删除该机器人后，Amazon.com 已禁止 Meta 的新 AI 代理访问其零售网站。
Meta’s Muse, which was introduced earlier this month and has taken the world by storm, quickly rising to the top of mobile app charts, a sign that the social media company is gaining traction in the increasingly crowded market for consumer AI assistants, and sent the company's stock price soaring, is designed to help people carry out such common online tasks as shopping and booking appointments.
Meta 的 Muse 于本月早些时候推出后迅速风靡全球，很快登上移动应用排行榜榜首，这表明这家社交媒体公司正在竞争日益激烈的消费者 AI 助手市场中获得牵引力，并推动公司股价飙升。该产品旨在帮助人们完成购物、预约等常见的在线任务。
However, since it has its own agentic product, Amazon prohibits other companies from deploying automated tools to shop its site and started blocking Muse on Sunday night, a spokesperson said. Shoppers using Muse see a series of pop-ups saying its use violates Amazon’s terms of use.
不过，一位发言人表示，由于 Amazon 拥有自己的智能代理产品，因此禁止其他公司部署自动化工具在其网站上购物，并于周日晚上开始屏蔽 Muse。使用 Muse 的购物者会看到一系列弹窗，提示其使用行为违反了 Amazon 的使用条款。
“We think it’s fairly straightforward that third-party applications

that oer to make purchases on behalf of customers from other businesses should operate openly and respect service provider decisions about whether or not to participate," Amazon spokesperson Lara Hendrickson said in an emailed statement, adding that an opt-in requirement is standard practice for food delivery apps and online travel agencies. "Agentic third-party applications such as Muse have the same obligations, and we've requested that Meta remove Amazon from the experience."

亚马逊发言人拉拉·亨德里克森在一份电子邮件声明中表示："我们认为，第三方应用代表客户向其他企业提出购买商品的服务，应当公开透明地运营，并尊重服务提供商是否参与的决定。"她补充说，要求用户主动选择加入是食品配送应用和在线旅行社的标准做法。"像 Muse 这样的代理型第三方应用也负有同样的义务，我们已要求 Meta 将 Amazon 从这一体验中移除。"

Amazon builds its own automated shopping tools, but has sought to prevent rivals' bots from browsing and making purchases from its catalog. The company last year sued Perplexity AI Inc., saying the widely used articial intelligence startup sought to conceal its shopping agents after Amazon asked Perplexity to remove them. The legal skirmish is widely seen as a high-prole test case that could help determine the rules of the road governing agentic shopping.

亚马逊正在开发自己的自动化购物工具，但一直试图阻止竞争对手的机器人浏览其商品目录并进行购买。该公司去年起诉 Perplexity AI Inc.，称这家广泛使用的人工智能初创公司在亚马逊要求其移除购物代理后，试图将这些代理隐藏起来。这场法律争端被广泛视为一个备受关注的测试案例，可能有助于确定代理型购物所遵循的规则。

So far, consumers are mostly using bots to research products rather than let them make purchases. So Amazon's move to block shopping agents from accessing its site means the company is unlikely to lose much business. But if consumers start using AI agents to buy stu, the bots could select other e-commerce sites, costing Amazon sales and advertising revenue.

到目前为止，消费者主要使用机器人研究产品，而不是让它们代为完成购买。因此，Amazon 阻止购物代理访问其网站的举措意味着，该公司不太可能损失太多业务。但如果消费者开始使用 AI 代理购买商品，这些机器人可能会选择其他电子商务网站，从而导致 Amazon 失去销售额和广告收入。

Amazon Chief Executive Ocer Andy Jassy said earlier this year that the agentic shopping experience left much to be desired, and that the bots often ubbed pricing or other data.

Amazon 首席执行官 Andy Jassy 今年早些时候表示，代理式购物体验仍有很多不足之处，而且这些机器人经常会弄错价格或其他数据。

“We’re having conversations with all those folks to try and make that better and nd something that works for customers and all the companies,” he said in April.
“我们正在与所有这些人展开对话，努力改善这一点，并为客户和所有相关公司找到可行的方案，”他在 4 月表示。
Perhaps to oset the negative vibes from the angry Amazon response, late on Monday, CEO Mark Zuckerberg said that he was "teaming up with Shopify to make shopping and checkout easier in Muse. Shoppers nd more. Shops sell more. More partnerships like this coming soon."
或许是为了抵消 Amazon 愤怒回应所带来的负面情绪，周一晚些时候，CEO Mark Zuckerberg 表示，他正在“与 Shopify 携手，让 Muse 中的购物和结账更加便捷。购物者能找到更多商品，商家能卖出更多商品。很快还会有更多类似的合作。”

We are excited to announce we are partnering deeply with Muse to enable agentic checkout with Shop Pay on all Shopify stores, offering people an easy and delightful way to shop and check out with Muse.
我们很高兴地宣布，我们将与 Muse 深度合作，在所有 Shopify 商店中实现通过 Shop Pay 进行智能代理结账，为用户提供一种便捷且愉悦的方式，通过 Muse 购物并完成结账。

Maybe... but more likely the won't be, since every retailer will want to have their own proprietary agents access to their own content and product oering.
也许吧……但更可能不会，因为每家零售商都会希望让自己的专有代理访问其自有内容和产品供应。

Hence agent wars.
因此，代理大战就此开始。
Meta's Muse is ranked the No. 1 free app on the US Apple iOS App and Google Play stores as of Monday. The assistant, which is available for people 18 years and older, was downloaded more than 902,000 times in the six days after Meta introduced it on Sept. 8, according to Abe Yousef, senior insights analyst at Sensor Tower. That's more than the 773,000 downloads of its predecessor, the Meta AI app, in the same post-launch period.
截至周一，Meta 的 Muse 已跻身美国 Apple iOS App Store 和 Google Play 商店排名第一的免费应用。Sensor Tower 高级洞察分析师 Abe Yousef 表示，这款面向 18 岁及以上人群开放的助手，在 Meta 于 9 月 8 日推出后的六天内，下载量超过 902,000 次。这一数字高于其前身 Meta AI 应用在上线后同期的 773,000 次下载量。
According to Goldman, Meta's Muse (powered by Muse Spark) represents a major leap because it delivers ready-to-use personal agents with simple chat interfaces, including deep WhatsApp integration for Muse, so no coding is required - unlike earlier Claude-style bots.
据高盛称，Meta 的 Muse（由 Muse Spark 提供支持）代表了一次重大飞跃，因为它通过简单的聊天界面提供可直接使用的个人代理，其中包括与 WhatsApp 的深度集成，因此无需编写代码——这不同于早期的 Claude 式机器人。
They actively handle tasks like booking holidays or restaurants, and go further by proactively chasing email follow-ups, agging inconsistencies or conicts in your inbox, monitoring threads, and advancing goals in the background even when you're oine. Classic chatbots like ChatGPT stay reactive: they answer questions or draft text only when prompted, never independently act across your apps or keep working on your behalf. As Goldman's TMT specialist Sean Johnstone writes, "the more I use Instinct the more I like it – its really is like having your own dedicated PA."
它们会主动处理预订假期或餐厅等任务，还会进一步主动跟进邮件后续事项、标记收件箱中的不一致或冲突、监控邮件线程，并在后台推进目标，即使你处于离线状态也不例外。ChatGPT 等经典聊天机器人则始终处于被动响应状态：只有在收到提示时才回答问题或起草文本，从不会跨应用独立执行操作，也不会代表你持续工作。正如高盛 TMT 专家 Sean Johnstone 所写：“我使用 Instinct 越多，就越喜欢它——它真的就像拥有一名专属 PA。”
The sudden surge of Muse means the frontier models' agentic dominance just got another major competitor. It also means there will be an unprecedented demand for hardware: as Wccftech writes, "If Meta's Muse Personal Agent Scales To Just 100 Million Users, It Would Require 1.58 Million AMD Ryzen CPUs, 800 Petabyte Of RAM, And 10,000 Petabyte

Of SSD Under Ideal Conditions." More:
Muse 的突然崛起意味着，前沿模型在智能代理领域的主导地位又迎来了一个重要竞争者。这也意味着硬件需求将前所未有地增长：正如 Wccftech 所写：“如果 Meta 的 Muse Personal Agent 仅扩展至 100 Million 用户，那么在理想条件下，它将需要 1.58 Million AMD Ryzen CPUs、800 Petabyte of RAM 和 10,000 Petabyte of SSD。”更多内容：
If you were wondering why everyone has suddenly turned so bullish on CPUs from Intel, AMD, and Arm, look no further than the underlying compute requirements for serving Meta's Muse personal agent to just 100 million users, assuming minimal sharing, especially as Meta has promised each Muse user a dedicated VM that can work continuously in the background.
如果你想知道为什么大家突然都看好 Intel、AMD 和 Arm 的 CPU，看看为仅 1 亿用户提供 Meta Muse 个人代理服务所需的底层计算资源就明白了——假设用户之间几乎不共享资源，尤其是 Meta 已承诺为每位 Muse 用户提供一台专属 VM，可在后台持续运行。
Also, Meta is currently allowing up to 100 million free tokens per week, with paid subscription tiers starting around $20 per month for heavy power users.
此外，Meta 目前每周最多提供 1 亿个免费 tokens，付费订阅层级则针对重度用户，起价约为每月 $20。

Every Muse user is supposed to get their own cloud PC.
2 vCPUs, 8GB RAM, 100GB disk.
每位 Muse 用户都应该获得一台专属云电脑。
2 个 vCPU、8GB RAM、100GB 磁盘空间。
If Meta actually leaves those boxes on, user growth turns into a chip and memory problem.
如果 Meta 真的让这些设备持续运行，用户增长就会转变为芯片和内存问题。
that’s what i'm trying to size
这正是我试图估算的规模。
a few thoughts on $META and Muse:

Of course, the agentic fee will only cover a tiny fraction of the hardware required to run the compute the agents will soak up, which means that - if successful in getting more people to use it - Zuckerberg is about to take Meta's capex into hyperdrive. Which, for the company formerly known as Facebook before it changed its name to Meta after a catastrophic foray into the metaverse which cost it nearly $100 billion in wasted funds, won't be the rst time it has aggressively chased an overhyped concept only to crash and burn.
当然，代理服务费只能覆盖运行这些代理所需硬件成本中极小的一部分，这意味着——如果扎克伯格成功让更多人使用这项服务——他即将让 Meta 的资本支出进入超高速增长阶段。对于这家曾名为 Facebook、后来因进军元宇宙这一灾难性尝试而更名为 Meta 的公司而言，这并不是它第一次激进追逐一个被过度炒作的概念，最终却以崩溃收场；那次尝试让它白白浪费了近 1000 亿美元。
